

RAINWATER HOG

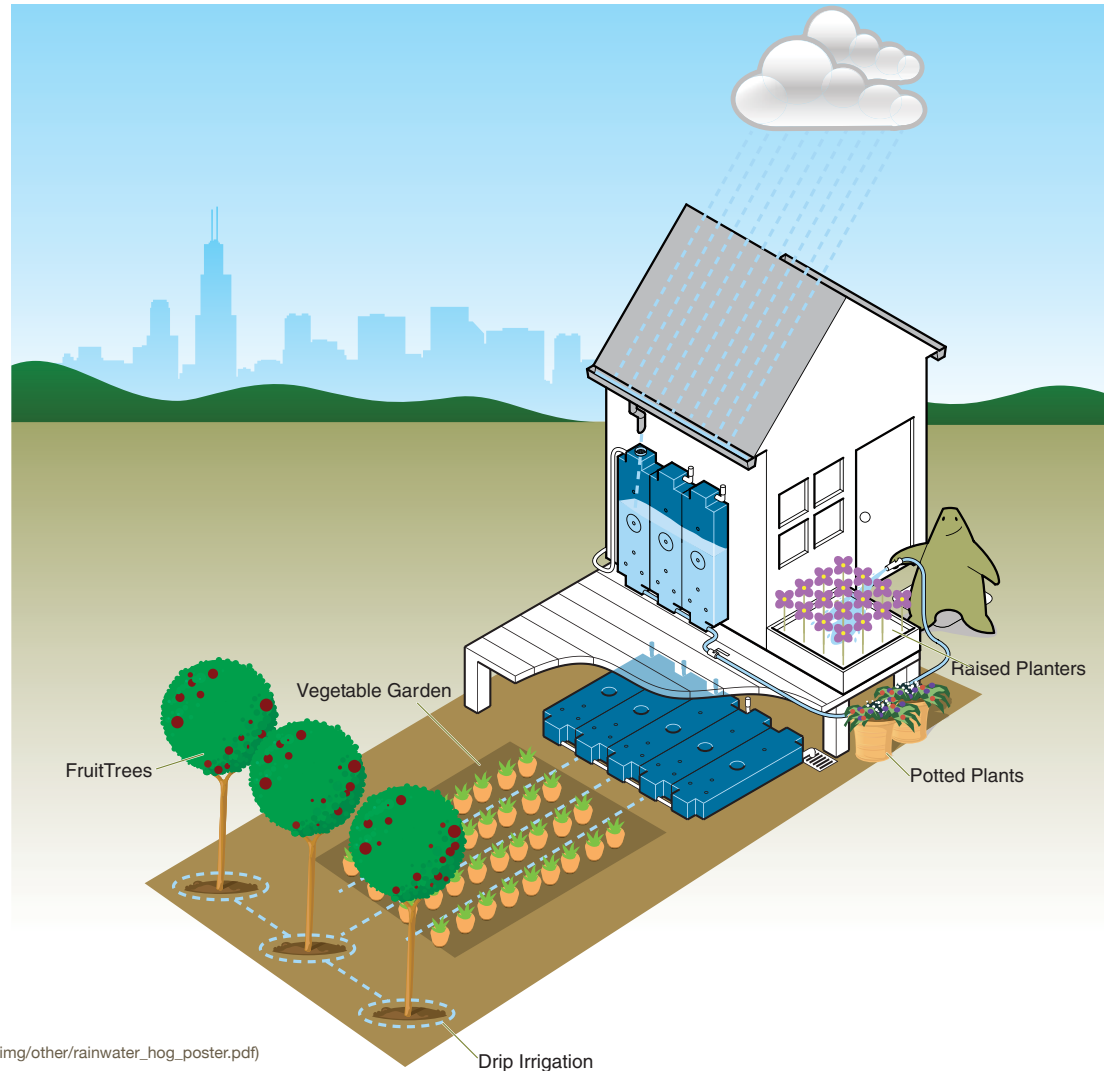

Store and reuse rainwater for watering vegetables, irrigating gardens, flushing toilets and washing laundry.

- Safe as HOGs cannot roll, and have child-safe openings
- Sturdy with a ¼ inch wall and UV stabilized food-grade plastic that can be used for emergency water storage
- Sustainable design for active reuse
- Space-saving at 9.5 inches deep, Rainwater HOG fits down side passages without impeding access or compromising storage
- Custom colors available
